Holistic Solutions

for Access Control, Time & Attendance Recording and Workforce Management

“Customized Solutions for State-of-the-Art Access Control and Time Recording”

You want to move your business forward

Your goal is to increase the security of your company's access points and to efficiently manage working time as a resource. To do this, you need a partner that you trust completely. You're not looking for a product - you're looking for the right solution. What you need is a complete, no-worries service that will steer you through the entire process, from consultation right through to system maintenance. One of our strengths is our ability to identify your requirements and work with you to develop a customized solution.

You require flexibility and efficiency

Would you like to integrate existing components while simultaneously meeting multiple time management and access security requirements? If you don't want to replace existing hardware for access to your business or for recording working times, our interfaces offer a range of options for fast and easy integration. We also include a large number of modules in your solution, such as visitor management or a Security Control Center.

You demand high standards of a modern system

In line with the trend for digitalization, you're aiming for total simplicity and convenience for your internal processes. Solutions for smartphones, Employee Self Service and smart visitor management will help you to take the load off your employees and give them more time for other tasks.

You insist on quality

We use a quality management system certified by TÜV Rheinland and are ISO9001:2008-compliant. Whether you have 50 or 100,000 employees, we have been leaders in the field of access control and time recording for more than forty years and will continue to rise to your challenges in the future.

A handwritten signature in black ink, appearing to read 'Bernhard Sommer'. The signature is fluid and cursive, written over a white background.
